

The National Conference on
Wilderness Medicine
Hawaii

Grand Hyatt Resort Kauai April 11-15, 2012

*Kauai is known for its' idyllic
beaches and breathtaking scenery.*

Program Objective

- 1) To educate participants in the pathophysiology, recognition, and treatment of a variety of medical problems commonly encountered in wilderness environments and settings remote from hospital or definitive care.
- 2) To help establish a set of treatment priorities for care of the sick or injured in wilderness settings.
- 3) To educate participants in basic aspects of improvised care, rescue, and evacuation.
- 4) To teach participants certain "field skills" which might enable a physician to be more "capable" in a setting remote from definitive care. Some of these topics include wilderness survival skills, planning an expedition medical kit, field water disinfection, and "improvisational" medical skills.
- 5) To educate participants about psychological aspects of wilderness emergencies.
- 6) To educate participants about some of the current recommendations regarding prophylaxis and treatment for so-called "Traveler's Illnesses".
- 7) To discuss and review recent investigative studies and literature on wilderness medical topics.

Target Audience:

Primary care physicians, nurses, physician assistants, and other health care providers who might encounter patients in remote settings or who may treat patients that develop medical problems after visiting remote areas. No Outside Commercial Support has been received for this activity.

Testimonials From Your Colleagues...

"Absolutely the most enjoyable and interesting CME conference I have ever attended! Probably the best group of lecturers I have ever experienced."

Daniel Nordin, MD Internal Medicine

"I attended the Conference as a representative from ACEP Education Committee...it was the best conference I have been to in years. Well organized, excellent speakers and great setting."

Katie Hurt, MD

"Most enjoyable and useful conference I've attended in the last 20 years. I hope to return every year hereafter."

Alan Lyn, MD FP Santa Paula, CA.

"Truly, the CME course of a lifetime."

Christopher Lang, MD

Wilderness Medicine
Medicine and the Spirit of Adventure

Opportunities for fun in Kauai are virtually endless. So, what do you want to do first?

Please contact A Meeting by Design 888-995-3088 for assistance in booking your recreational activities.

GOLF - Some of Hawaii's best golf - and most challenging golf courses - are found on Kauai. What puts all these golf courses in a class above those you might play elsewhere is their location. Most come with an inspiring ocean view or spectacular mountain backdrop.

HORSEBACK RIDING can be one of the best and most fun ways to explore Kauai. Trails take you to Haupu Valley, along the beach and past the coves of Mahaulepu Beach, or down into Waimea Canyon, known as the "Grand Canyon of the Pacific."

HIKING - Kauai is a hiker's paradise. Original Hawaiian trails will take you through spectacular canyons, past breathtaking waterfalls and lead you to hidden pools.

FISHING - Kauai is a popular spot for both freshwater and saltwater anglers. Large and smallmouth bass are taken in Kauai's inland reservoirs. Marlin, ahi, ono, and aku are found in abundance off Kauai's south and east coasts.

KAYAKING - Kauai is unique among the islands of Hawaii for having the only navigable rivers in the state. You can rent one and two person kayaks for guided or self-guided tours and explore the north fork of the Wailua River.

KAUAI - HAWAII'S ISLAND OF DISCOVERY

The most difficult thing about a visit to Kauai - besides getting on the plane to return home - is knowing where to start once you get there.

WINDSURFING - Kauai's unique combination of protected lagoon waters and steadily blowing winds make it the perfect location for beginner and advanced windsurfers.

WHALE WATCHING is not to be a missed experience this time of year. Ocean kayaks are available to paddle out to view the many whales swimming right off the coast. Whale watch cruises and sails also go out daily. **BRING YOUR CAMERA.**

SNORKELLING and SCUBA DIVING - The best snorkelling and diving in Hawaii is found along the southern shore of Kauai, near Poipi Beach. The water is clear and sea life is abundant.

HELICOPTER FLIGHT TOURS will let you experience the Garden Isle from a different perspective. Flights will take you over craters, through canyons and past waterfalls. Breathtakingly beautiful and exotic. Discounted rates for participants and their guests have been arranged.

Special Pre-Conference Workshop

Wilderness and Urban Survival

Wednesday, April 11, 8:00 am – 4:00 pm \$120

A unique opportunity to learn and practice both basic and advanced survival skills from a Navy Seal Instructor and other renowned survival experts who train our elite Special Forces. This all day “hands-on” workshop is a practical and fun, skill building experience, designed to prepare you to survive on land, in the sea, in the wilderness and urban environments. Limited enrollment (register early!) Faculty: Gary Kibbee

Participants will learn how to:

- Signal and be found
- Obtain food and water
- Build fires with primitive tools
- Escape a hotel fire
- Construct & improvise survival kits
- Survive a plane crash
- Protect yourself during a disaster
- Travel safely in third world countries and avoid being “ripped off”
- Find and construct emergency shelters

Constructing a Solar Still

Participants learn how to survive and escape a hotel fire using simulated smoke

Exciting Course Workshops

Sunday, April 15, 2012

8:00 am - 12:00 pm Participants may attend 4 different workshops of their choice. (One hour each - listed below). The workshops below are included in your course tuition, and do not require pre-registration.

- 1 IMPROVISED SPLINTING, PACKAGING, & EVACUATION:** This hands-on workshop will cover improvised splinting in the backcountry, including splinting of common injuries using materials found in a typical backpack, building various improvised litters from commonly available outdoor equipment, and stabilizing trauma patients *Howard Donner, MD*
- 2 FRACTURE & DISLOCATION MANAGEMENT:** Learn how to recognize, reduce and splint fractures and dislocations in the backcountry. *Joseph B. Serra, MD*
- 3 DIVING SAFETY AND RESCUE:** This workshop discusses innovative diving equipment, safety devices and advanced techniques for avoiding and treating diving related accidents. *Gary Kibbee*
- 4 TAKING CHILDREN SAFELY INTO THE WILDERNESS:** Learn how to maximize enjoyment, appreciation, and safety on family wilderness trips. *Gene Allred, MD*
- 5 SURVIVAL STRATEGIES FOR THE ADVENTURE TRAVELER** How to protect yourself and stay safe while traveling. Learn what to do if you're caught in a fire, disaster, or hijacked airplane, and what precautions to take when you're away from home. *Philip White*
- 6 AVALANCHE SURVIVAL & RESCUE:** Learn the latest techniques, technology and survival strategies *Lanny Johnson, FNP/PA*
- 7 NEW TECHNOLOGIES/TOOLS IN WILDERNESS MEDICINE/SURVIVAL:** This interactive workshop explores the latest telecommunication, GPS, satellite and other search and rescue technologies to avoid getting lost, and facilitate being found. *Howard Donner, MD*
- 8 WILDERNESS MEDICINE CASE STUDIES:** Provocative and educational real-life case studies will be presented in an interactive manner to maximize learning and fun. *Peter Hackett, MD*

Children & Teen – Educational Program

This series of workshops and activities have been designed to maximize enjoyment and education for your entire family. Our Wilderness Education Program for Children is nationally acclaimed and classes fill quickly! Please register early as space is limited.

SURVIVAL

Survival for Kids — An interactive and educational workshop designed exclusively for children that provides a positive, fun and rewarding experience. Children learn how to avoid getting lost, how to spend a survival night out and how to stay warm. They practice signaling and building improvised shelters. (Ages 6-12)

Offered Daily April 11 - 14, 8:30 – 11:30 am \$60

Survival for Teens — This course is designed to teach older children how to navigate safely and avoid getting lost in the backcountry, how to build improvised shelters and fires, find food, and survive the unexpected night out. (Ages 12 and up)

April 11, 1:00 – 4:00 pm or April 13, 8:30 – 11:30 am \$60.

FIRST AID

Wilderness First Aid For Kids — This course will teach children how to recognize and manage common medical problems and emergencies. (Ages 7-12) **April 13 or 14, 8:30 – 11:30 am \$60**

Wilderness First Aid For Teens — This exciting hands-on course is designed to teach young adults how to take care of themselves and others in an emergency. Includes a first aid kit and AHA Heartsaver First Aid/CPR certificate. (Ages 12 and up.) **April 12, 8:30 – 12:30 am \$70.**

NEW CHILDREN'S AND TEENS WORKSHOP:

Marine Biology / Marine Animal Identification Workshop — A fun and educational introduction for kids and spouses to fascinating sea creatures and their habits taught by renowned expert Karen VanHoesen, M.D. **April 12, 1:00 – 2:30 pm \$20.**

Optional Conference Workshops

PRE-REGISTRATION REQUIRED & CLASS SIZE IS LIMITED. *The optional workshops listed below are offered in conjunction with the conference to enhance your experience. Please note that these workshops are separate from the course workshops which are included with your tuition on Sunday, April 15th.*

WILDERNESS SURVIVAL: This workshop is a hands-on skill building experience. You will learn how to construct shelters, obtain food and water, build fires with primitive tools, signal, track, routefinding and survival kits.

Thursday, April 12 or Saturday, April 14, 1:30-5:30 pm. \$60.

ADVANCED ORTHOPEDIC FIELD SKILLS / SPLINTING WORKSHOP:

Extremely valuable skills taught include: Learn how to splint all common fractures / major joints using SAM splints or other improvised splints, ankle taping, improvised femoral traction splinting, improvised neck and back immobilization.

Thursday, April 12, 3:15-5:30 pm. \$50.

ROPES & KNOTS FOR WILDERNESS MEDICINE & RESCUE: This workshop will teach you how to use ropes and tie knots for high angle rescue, swift water rescue, and improvised medical care. **Thursday, April 12, 1:00-3:00 pm. \$40.**

OUTDOOR ADVENTURE PHOTOGRAPHY WORKSHOP: Learn new and creative ways to compose and capture natural beauty and adventure in the outdoors with acclaimed photographer Lanny Johnson. Lanny's stunning images have been featured in many publications including National Geographic. Technical aspects of lighting and equipment will be discussed. The seminar will also focus on how to work artistically to create beautiful, dynamic, and adventurous images. **Thursday, April 12 1:30-4:00 pm. \$55**

MARINE BIOLOGY / MARINE ANIMAL IDENTIFICATION WORKSHOP: An introduction to common marine species found in the Hawaii area. Taught by Karen Van Hoesen, M.D., director of Diving Medicine at UCSD.

Thursday, April 12, 1:00-2:30 pm. \$20 Children and spouses welcome.

The workshops feature practical skills taught in small groups.

Participants practice suturing during wound management lab.

BASIC WOUND MANAGEMENT/SUTURE LAB: A practical workshop on suturing and improvised laceration repair in a backcountry environment. Participants will have the opportunity to practice basic suturing, stapling, taping, and tissue gluing techniques on pig limbs. Supplies and pigs' feet provided. **An Friday, April 13, 2:30-5:00 pm. \$40**

URBAN & TRAVEL SURVIVAL: You have just lost all of your belongings and your passport in an earthquake or act of terrorism. Your hotel was destroyed, and your companion is missing. Few Americans are prepared to cope with this type of crisis. Urban and travel survival can be more challenging than survival in the backcountry. Learn how to travel safely and protect yourself. **Friday, April 13, 1:30-5:30 pm. \$60**

PRACTICAL WILDERNESS MEDICAL SKILLS "WHAT THEY DON'T TEACH YOU IN MEDICAL SCHOOL":

This popular intensive "hands-on" workshop, lead by Howard Donner MD, has limited enrollment and always fills up fast. Participants will learn and practice scene management, backcountry patient assessment, improvised splinting and trauma care, lifting and moving injured patients, and more. Includes all equipment, critiqued scenarios and simulations. **Friday, April 13, 1:30-5:30 pm. \$60**

MAP AND COMPASS NAVIGATION SKILLS: Learn practical and valuable field navigation skills using map and compass. **Saturday, April 14, 1:30-5:00 pm. \$60**

About Our Distinguished Faculty

HOWARD J. DONNER, MD: Filmmaker/Physician/Guide, Member 1997 Nova Everest Expedition; NASA consultant; expedition doctor, 1988 American Kangchenjunga Expedition; Co- author, *Field Guide to Wilderness Medicine*.

RICHARD F. CLARK, MD, FACEP: Executive Director, California Poison Control System; Director, Division of Medical Toxicology, UCSD Medical Center, Professor of Emergency Medicine, UCSD Medical Center, San Diego, CA.

PETER HACKETT, MD: Clinical Director, Altitude Research Center, University of Colorado School of Medicine; Director of Emergency Services, Telluride Medical Center; Director of the Institute for Altitude Medicine at Telluride.

JOSEPH B. SERRA, MD: Founding member of the Wilderness Medical Society; Orthopedic Surgeon, Stockton, California, 25 year member, National Ski Patrol, Rotary International to Africa.

LANNY JOHNSON, FNP/PA: Physician Assistant, Jackson Hole, Wyoming; Medical Advisor and former Climbing Park Ranger and Park Paramedic, Grand Teton National Park, Wyoming.

GARY KIBBEE: Navy Seal; Special Forces Survival Instructor; swift water rescue, high angle rescue, and dive rescue instructor; specialist in tactical and wilderness medicine, escape and evasion, and confined space rescue.

DANNY KIBBE: Survival Instructor specializing in training children and teens to survive in any environment.

PHILIP WHITE: Fire Chief, South San Francisco Fire Department; Senior Fire Instructor and Instructor of Heavy Rescue (building collapse); Hazardous Materials specialist.

KAREN VAN HOESEN, MD, FACEP: Associate Professor of Emergency Medicine, UCSD School of Medicine; Director, UCSD Diving Medicine Center.

COURSE DIRECTORS:

GENE ALLRED, MD: Emergency Physician, Ashland, Oregon; Professional Whitewater and Mountaineering Guide for over 20 years. Has trekked, rafted, and climbed on six continents.

ERIC A. WEISS, MD, FACEP: Associate Professor of Emergency Medicine and Director, Stanford Wilderness Medicine Fellowship, Stanford University School of Medicine; Medical Consultant, National Geographic Society, Author of *A Comprehensive Guide to Wilderness and Travel Medicine*, and *Field Guide to Wilderness Medicine*.

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards and the policy of the American College of Emergency Physicians all faculty are required to disclose to the program audience any real or apparent conflict(s) of interest related to their presentation(s).

CME Accreditation

Physician Credit: This activity has been planned and implemented in accordance with the Essential Areas and Policies for the Accreditation Council of Continuing Medical Education through joint sponsorship of American College of Emergency Physicians, CAL/ACEP, and Mountain Medical Seminars. The American College of Emergency Physicians is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American College of Emergency Physicians designates this live activity for a maximum of 23 *AMA PRA Category 1 Credit (s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ACEP: This program has been approved by the American College of Emergency Physicians for 23 hours of ACEP Category I credit.

AAFP: This program has been reviewed and is acceptable for up to 23 hours prescribed credit by the AAFP.

Nurse Credit: Under the new BRN guidelines, this course is also accredited for 23 hours of nursing credit.

EMT'S: National registered EMT'S and EMT-Paramedics will receive 23 hours of continuing education credit toward Section II requirements.

TARGET AUDIENCE: All physicians and health care providers interested in medical care in a wilderness setting.

REFUNDS must be requested by March 12, 2012, and will be subject to a \$75 service charge. After that date no refunds will be given. Sponsors cannot be responsible for travel difficulty due to road or weather conditions. We strongly recommend the purchase of travel insurance available at www.mtnreg.com/kaui.
